

How to login to your Aruba Bank App®

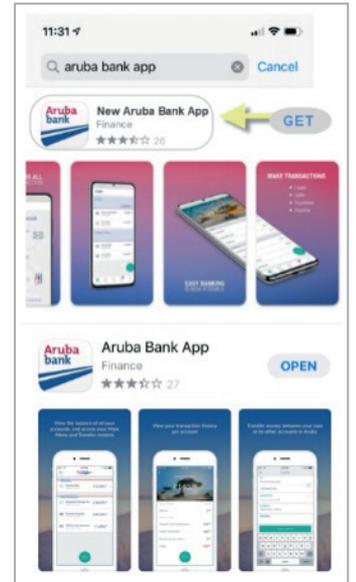

Important note before you start downloading your “New” **Aruba Bank App®**:

- uninstall the “Old” App to avoid confusing between the two App’s.
- the old **Aruba Bank App®** will become inactive after you have received email with the ‘**Activation Link**’.

How to download and access the new Aruba Bank App®

Step 1: Install the NEW Aruba Bank App®

To access the new Aruba Bank App®, go to your App Store (iOS or Google Play), and download the new App, (make sure to download the correct App, stating “New Aruba Bank App®”).

Step 2: Get your ‘Activation Link’

1. Using your Mobile device, go to your email box. Your ‘**Activation Link**’ is sent to the email which you have registered at Aruba Bank for your Online Banking (double check in your email **Junk** box).
2. Using your Mobile device, click on the ‘**Activation Link**’. This link will lead you directly to the activation of your **Aruba Bank App®**.

Step 3:

- Make sure you have your Username, Customer ID or Sub-User ID at hand, and simply follow the steps in the App to complete installation.
- Select your 5-digits PIN code, opt-in to activate your Face or Touch ID (if available on your device)
- And start enjoying your **Aruba Bank App®**.
