

## How to download and save your digital insurance policy:

1

Open the email containing the document or click on the provided link.

2

Once the document is displayed on your screen, locate the download or save button/icon.

3

Tap on the download or save button/icon. This will initiate the download process.

4

Once the document is downloaded, open your smartphone's digital wallet app.

(Note: The digital wallet app may vary depending on your device and operating system. It could be Apple Wallet, Google Pay, Samsung Pay, or any other supported wallet app.)

5

In the digital wallet app, look for the option to add or import a document.

6

Select the downloaded document from your device's storage or gallery.

7

Follow the prompts and provide any necessary information, such as document name or category.

8

Confirm the import or add action, and the document will be saved in your digital wallet.
